ABOUT ME

A versatile and results-driven professional with a unique blend of expertise in mental health support and executive business leadership. Brings over five years of combined experience delivering person-centered psychosocial support to vulnerable individuals, coordinating multidisciplinary care, and managing complex caseloads within Australia's community services sector, alongside proven success as a Chief Executive Officer leading international education consultancy, English language training, and digital entrepreneurship initiatives across Pakistan and global markets. Skilled in building trusted relationships with clients and stakeholders from diverse cultural backgrounds, with a strong track record of mentoring and empowering individuals — from supporting clients through mental health recovery journeys to guiding over 500 students toward academic, professional, and entrepreneurial success. Combines compassionate, ethical service delivery with strategic vision, international partnership-building, and hands-on leadership, bringing a rare ability to connect deeply with people while driving organizational growth and measurable outcomes. Adaptable, culturally aware, and committed to creating meaningful impact, whether through frontline psychosocial care or executive-level business and educational leadership.

● **CONFERENCES AND SEMINARS**

01/2019 Government of South Australia

Safe Environments for Children and Young People

Key areas covered included recognizing early signs of mental health issues such as anxiety, depression, behavioral changes, and emotional distress. The seminar highlighted the role of caregivers, educators, and support workers in early intervention, active listening, and building trust-based relationships.

Participants were trained in safeguarding practices, risk identification, and appropriate response strategies to ensure the safety and emotional wellbeing of children. The program also focused on promoting resilience, confidence, and positive development through supportive communication and structured guidance. the description...

07/2019 NDIS Quality and Safeguards Commission- South Australia

NDIS Worker Orientation Module

The training emphasizes the importance of supporting individuals with disabilities, including those with psychosocial and mental health conditions such as anxiety, depression, and trauma-related challenges. It focuses on promoting dignity, choice, independence, and social inclusion while ensuring the safety and wellbeing of participants.

Key learning areas include understanding the NDIS Code of Conduct, safeguarding and duty of care, recognizing and responding to risks, and maintaining professional boundaries. The training also highlights effective communication, cultural sensitivity, and the importance of empowering participants to achieve their personal goals.

04/2019 St John Ambulance- South Australia

First Aid (HLTAID003/002/001)

The training equipped with practical skills to respond effectively to emergency situations, including performing CPR, managing unconscious casualties, controlling bleeding, treating burns, fractures, and shock, and responding to medical emergencies such as asthma attacks, allergic reactions, and seizures.

Emphasis was placed on quick assessment, risk management, and ensuring safety of self and others while delivering immediate care until professional medical assistance arrives. The course also reinforced confidence in handling real-life emergency scenarios in workplace and community settings.
